PROFILE

Creative and results-driven Front-end Developer with 1.6 years of experience building responsive, user-friendly, and high-performance web interfaces. Adept at turning design mockups into pixel-perfect, accessible pages using HTML, CSS, Tailwind, JavaScript, and modern frameworks like React.js and AngularJS. Strong in team-oriented collaboration, proactive communication, and problem-solving. Skilled in working closely with design and back-end teams to deliver seamless, engaging digital experiences. Passionate about continuous learning, optimizing performance, and crafting clean, maintainable code that brings creative ideas to life.

SKILLS

Technology: HTML, CSS, JavaScript, React.js, Redux, AngularJS, TypeScript(learning)

Styling: Bootstrap, Sass, Responsive Design, Cross-Browser Compatibility

Tools & Platforms: Git, GitHub, Webpack, NPM, Babel, Postman

PROFESSIONAL EXPERIENCE

12/2023 – present Bagalkot, India	**Mid-Level Developer** *Springevening Private Limited* ⧉

- Built and maintained modular, scalable UI components using React.js, AngularJS, and TypeScript (currently learning) to improve code reusability and maintainability.
- Collaborated with UX designers via Figma to implement responsive, cross-browser interfaces across desktop and mobile devices.
- Optimized application performance and reduced load time by 25% through code splitting, efficient rendering, and build-time improvements.
- Integrated and tested RESTful APIs using Postman, ensuring smooth real-time data flow and robust client-server communication.
- Gained working knowledge of backend development using Node.js and Express.js to create scalable REST APIs for integration with frontend interfaces.
- Refined Webpack and NPM configurations for faster builds and enhanced runtime performance; utilized Angular CLI and React scripts for streamlined development.
- Reduced development time and costs by 15% by designing reusable UI component libraries and optimizing development workflows.
- Led the frontend development of a B2B web application for automated invoicing and advanced reporting capabilities.
- Currently exploring Flutter for cross-platform UI development, leveraging AI tools like ChatGPT to optimize widget design and implementation.

CERTIFICATES

- Frontend Developer(React) ⧉

EDUCATION

08/2019 – 09/2023 Bagalkot, India	**Electronics and Instrumentation Engineering** *Basaveshwar Engineering College* ⧉
